MORE THAN A DESK

Our Interiors Department can help you design a functional workspace

Our designers can bring a vision to life, no matter the project size. With an abundant list of furniture vendors, we work with customers, architectural firms and even external Interior Designers.

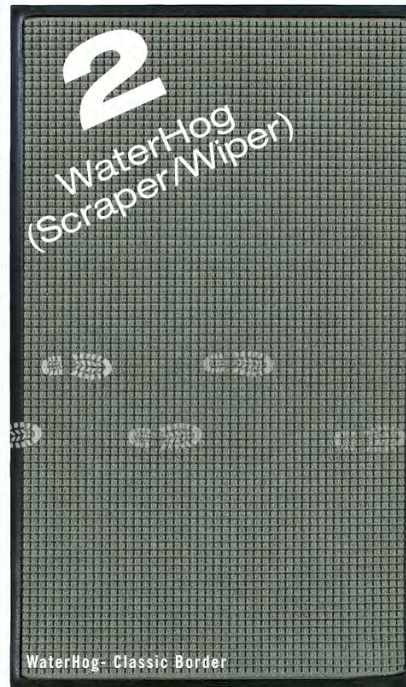

A well-designed workplace goes beyond aesthetics; it considers the unique needs of the employees and the organization. It fosters a positive work culture, boosts creativity and productivity, and contributes significantly to the success of the business.

Workplace trends show many spaces bringing the comforts of home to the office, while considering flexible work areas. A mix of residential inspired furnishings with commercial durability offer a warm office environment. Lounge spaces, collaborative areas and adjustable workspaces – as shown in these photos – continue to gain prominence.

WIPE THE MUD AWAY

1 **Scaper Mats** are placed outside your building as your first defense against dirt, grime, and moisture. They feature surface cleats designed to scrape tough dirt and grime from shoes and trap dirt below foot level.

2 **WaterHog Mats** are the perfect blend of scaper and wiper, and can be placed indoors or outdoors. They feature a water dam border design that can hold up to 1.5 gallons of water per square yard.

3 **Carpeted Mats** are the grand finale of the 3 mat system. They are designed to wipe the remaining dust and moisture from your shoes and off your office carpet or tiles!

**DID YOU
KNOW?**

85% of dirt, dust, and moisture that is tracked into buildings could be contained within the first 15 to 18 feet with proper matting.

These mats are available in a wide variety of colors, shapes and sizes. Talk with your territory manager about your perfect 3 mat system options and pricing!
