Support for Windows 10 will end in October 2025

After October 14, 2025, Microsoft will no longer provide free software updates from Windows Update, technical assistance, or security fixes for Windows 10. Your PC will still work, but we recommend moving to Windows 11. Windows 11 offers a modern and efficient experience designed to meet current demands for heightened security.

Office Peeps Can Help

Office Peeps can help you determine your upgrade needs from the ground up. Our service department can help determine if an existing PC is able to accept the Windows 11 upgrade or build a new Windows 11 ready PC to your exact specifications.
